JUDYS' CLEVER WORK.

As a result of some clever detective work on the part of Jailer George Judy the notorious negro Herbert Gatewood, formerly of Mt. Sterling, was arrested at Maysville and brought here by Chief of Police H. A. Ort, of that city, yesterday. Last summer Gatewood came here and tried to clean up with some Claysville negroes. In a running fight down Main Street Gatewood fired several random shots, a number of persons making narrow escapes. He was finally run down by the officers and landed in jail, receiving \$25 fine and thirty days on two different charges. In October he made his escape from guard Savage and in November was apprehended at Mt. Sterling and arrested by Chief of Police Chas. Wilson of that place. He was brought back and in Judge Smith's Court was assessed an additional heavy fine. He again after a few weeks of jail duty made his escape, this time severing the heavy iron chain with which he was manacled. Guard Savage fired several shots at the fleeing negro and nothing was heard of him until yesterday morning.

When Gatewood made his last escape Jailer Judy remembering that he corresponded with a woman at Maysville sent one of the letters to the authorities there, who after locating the woman kept close watch on the premises with the result that Gatewood walked into the trap. He will be tried before Judge Dundon and if the limit of ten times the former penalty is meted out, he will do service for the county for something more than two years.

Dangers of Defective Plumbing!

Defective plumbing permits the entrance into the house of sewer gas bearing germs or contagious disease to which the human system readily succumbs. Sewer gas is not necessarily generated in the sewer, but is frequently created in the plumbing system within the home and enters the apartments through defective fixtures. If in doubt, consult us regarding the piping and repairing defective fixtures with "STANDARD" Porcelain Enameled Ware, acknowledged as the best sanitary equipment.

The action Monday of the Republican County Committee in summarily reading J. D. McClintock out of the party, has renewed and intensified the factional feeling existing in the Republican ranks in this county. Mr. McClintock, as a citizen of Paris, is inseparably connected with her business interests, and has proven himself in many ways a business man of sterling integrity. As a politician, and as such Mr. McClintock has always been known to us; as a Republican, we can not vouch. We have no desire to become acquainted with the difference of Bourbon county Republicans, the settlement and adjustment of which they alone can settle. It seems to us, however, looking at the matter from a Democratic standpoint, that the struggle now going on and which has been brewing for half a generation in the Republican party organization of this county is one, the object and aim of which is to control federal patronage, and not based upon the high conception for the control or betterment of existing conditions as regards self government in this county.

Home-Come week in Louisville in June will bring back to Kentucky many thousands of her native citizens, now residents of other states. Doubtless many of these were natives of this county, or residents here at the time of their departure for the boundless West. They will no doubt, after enjoying the festivities at Louisville come back to the county of their boyhood days. What preparation has been made to receive them? Who will extend the welcome hand of friendship? Other counties, in fact, nearly every county in the State, has perfected an organization to ascertain how many will come to their respective localities and have made arrangements to entertain them. Would it not be fitting for this proud old county of Bourbon to do likewise? Some sort of a manifestation of our appreciation of their home coming should be made at the time is growing near. Who will take the initiative? The ladies of course!

PITY THE POOR ORPHAN.

Prodigal as the Rothschilds were and are they nearly all have had one trait in common. They will give \$5,000 without a moment's hesitation; they will not be fleeced of a dime after half an hour discussion. There is a very amusing story in connection with this trait relating to Leopold de Rothschild's father. The son was in the habit of taking the same cab every morning from Picadilly to St. Swithins lane, and always gave the jehu half a crown. One morning when the son was away the sire hailed the conveyance, and at the end of the journey gave the driver a florin, a coin of less value than a half crown. Cabbie looked at the coin wistfully. "What's wrong?" asked the old man. "Nothing sir," was the reply, "but Mr. Leopold always gives me half a crown." I don't wonder at it. Mr. Leopold is a spendthrift, but he can afford it; he has a rich father. I am an orphan, and can't."

Free Reclining Chair Cars.

The Southern Railway has inaugurated free reclining chair car service between Louisville and Evansville on their fast through trains leaving Louisville at 7:30 a. m. and 5 p. m. daily, and running solid to Evansville, without change. This line also operates free reclining chair cars on night Lexington and Danville to St. Louis, also Pullman Sleeper through from Danville to St. Louis. The Southern Railway is 23 miles the shortest from Louisville to Nashville and forty-three miles the shortest to St. Louis.

NEGRO COLONY FOR MEXICO.

D. F. Whittaker president of an emigration company has purchased 85 square miles of land in the Southern part of the state of Tamaulipas, Mex., where he proposes to establish an exclusive negro colony. This plot will be divided into 40-acre farms and sold to the negroes on easy terms. Whittaker claims that he will move 10,000 negroes into Mexico from the Southern States before this fall. Cotton and other products, with which the negro is familiar, will be grown. The warm climate is peculiarly suited to them. The Mexican government is encouraging the scheme.

OFFICERS SHOT FROM AMBUSH.

Deputy Sheriff Smith was instantly killed, and Robert McCabe, a constable, was mortally wounded, while going to arrest one Haycock, who lived near Paoli, Ind. John Elrod accused Haycock, who formerly lived in Orange county, Ky., of stealing his corn. Elrod hid behind the crib and when Haycock appeared, he accused him of robbery. Haycock then shot him through the arm. When the two officers, armed with warrants, were within a few yards of Haycock's home, they were fired upon from ambush.

WHICH ONE WAS KEPT.

There were two little kittens, a black and a gray.
And grandmamma said with a frown,
"It will never do to keep them both.
The black one we'd better drown."
"Don't cry, my dear," to tiny Bess,
"One kitten's enough to keep:
Now run to nurse, for 'tis growing late,
And time you were fast asleep."
The morrow dawned, and rosy and sweet
Came little Bess from her nap;
The nurse said, "Go into mamma's room
And look in grandma's lap."
"Come here," said grand mamma,
with a smile,
From the rocking chair where she sat;
"God has sent you two little sisters,
Now, what do you think of that?"
Bess looked at the babies a moment.
With their wee heads, yellow and brown,
And then to grandmamma soberly said,
"Which one are you going to drown?"

BRAZILIAN TREASURE FOUND.

The director of the treasury of Rio de Janeiro, Brazil, while hunting for some lost papers, has made an astonishing discovery. A box which had not apparently been disturbed for many years was found to contain gold, silver and diamonds to the value of at least \$700,000. Among the valuables recovered was the imperial crown and sceptre of Brazil, valued at \$100,000, and the imperial mantle bordered with gold. The box in which the treasure was found is believed to have been deposited in the treasury since 1836.

—The Blue and the Gray, ex-soldiers
of the civil war, ages from 64 to 76
will appear at the Millersburg opera
house on Friday evening, April 13th.
The music occupied a place between
the classical "ticknuck" and the
giggly-gig rag time varieties. Their
violins, all of the Stardivaris model,
are from 105 to 191 years old, of won-
derful volume, brilliancy and purity of
tone. These old men play the old-time
favorites with three full parts, air,
tenor and bass. Some of these airs

Eminent Doctors Praise its Ingredients.

We refer to that boon to weak, nervous,
suffering women known as Dr. Pierce's
Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff
of THE ECLECTIC MEDICAL REVIEW says
of Unicorn root (*Helonias dioica*) which
is one of the chief ingredients of the "Fa-
vorite Prescription":

"A remedy which invariably acts as a uter-
ine invigorator * * * makes for normal ac-
tivity of the entire reproductive system."
He continues "In Helonias we have a medica-
ment which more fully answers the above
purposes than any other drug with which I am
acquainted. In the treatment of diseases pecu-
liar to women it is seldom that a case is
seen which does not present some indication
for this remedial agent." Dr. Fyfe further
says: "The following are among the leading
indications for Helonias (Unicorn root). Pain
or aching in the back, with leucorrhoea;
atonic (weak) conditions of the reproductive
organs of women, mental depression and ir-
ritability, associated with chronic diseases of
the reproductive organs of women, constant
sensation of heat in the region of the kid-
neys; menorrhagia (flooding), due to a weak-
ened condition of the reproductive system;
amenorrhoea (suppressed or absent monthly
periods), arising from or accompanying an
abnormal condition of the digestive organs
and anaemic (thin blood) habit; dragging
sensations in the extreme lower part of the
abdomen."

If more or less of the above symptoms
are present, no invalid woman can do
better than take Dr. Pierce's Favorite
Prescription, one of the leading ingredi-
ents of which is Unicorn root, or Helonias,
and the medical properties of which it
most faithfully represents.

Of Golden Seal root, another prominent
ingredient of "Favorite Prescription,"
Prof. Finley Ellingwood, M. D., of Ben-
nett Medical College, Chicago, says:

"It is an important remedy in disorders of
the womb. In all catarrhal conditions * * *
and general catamenial, it is useful."
Prof. John M. Scudder, M. D., late of
Cincinnati, says of Golden Seal root:

"In relation to its general effects on the
system, there is no medicine in use about which
there is such general unanimity of opinion. It
is universally regarded as the tonic useful in
all debilitated states."
Prof. Bartholow, M. D., of Jefferson
Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menor-
rhagia (flooding) and congestive dysmenor-
rhoea (painful menstruation)."

Dr. Pierce's Favorite Prescription faith-
fully represents all the above named in-
gredients and cures the diseases for which
they are recommended.

have been written, but the tenor and
bass have not, but all being natural
musicians they have composed these
parts themselves. They come to us
highly recommended and deserve a
large house. Remember who they are.

—The reception given by the senior
class of M. M. I. Friday evening was a
brilliant success. The weather was
soft and balmy, the moon bright, the
house brilliantly illuminated, the deco-
rations artistic, the costumes hand-
some, the girls beautiful, the gentle-
men gallant, the lunch bountiful and
dainty, the music on the handsome
piano furnished by the Auto-Grau Piano
Co., with the Simplex attachment,
manipulated by F. Joseph Volz, was
inspiring. About four hundred guests
were present and to say that all were
well pleased is putting it mildly.

The readers of this paper will be
pleased to learn that there is at least
one dreaded disease that science has
been able to cure in all its stages, and
that is Catarrh. Hall's Catarrh Cure
is the only positive cure now known to
the medical fraternity. Catarrh being
a constitutional disease, requires a con-
stitutional treatment. Hall's Catarrh
Cure is taken internally, acting direct-
ly upon the blood and mucous surfaces
of the system, thereby destroying the
foundation of the disease, and giving
the patient strength by building up the
constitution and assisting nature in
doing its work. The proprietors have
so much faith in its curative powers
that they offer One Hundred Dollars
for any case that it fails to cure. Send

Dying of Famine

is, in its torments, like dying of con-
sumption. The progress of consump-

tion in its first stage," writes Wm.
Myers, of Cearfoss, Md., "after try-
ing different medicines and a good

NEW GOVERNMENT BUILDING.

Telegraphic dispatches from Washington Friday told of the action of the Committee on Public Buildings in allowing an appropriation for a government building at this place. The Lexington Leader Friday afternoon in a column article laments over the fact that Paris gets an appropriation and that Lexington is left out in the cold. In the name of justice and common sense, what is it that Lexington does not want? Have you not had your share? Cease acting the baby and let some of your prosperous neighboring towns have a morsel of public favor. The Leader in the following notice of the matter charges Congressman South Trimble with political selfishness in securing the appropriation. The Leader says: "Representative South Trimble has made a hard fight for a Government building at Paris, and has won out, the proposed bill containing a provision for a new postoffice at the Bourbon county seat. This fight practically disposes of Lexington's chances for an enlargement, as it is generally understood that no district shall have two appropriations at the same session unless it has an extraordinary claim of strong pull. Mr. Trimble formally endorsed the Lexington extension, but in view of his Congressional aspirations and the certainty that he could hope for nothing from Fayette county, he was naturally more interested in securing a building for Paris." A telegram from Washington states the committee hearings have closed and the bill for Paris' appropriation will be reported and passed by April 15.

STOCK AND CROP.

—R. L. Whaley purchased of Mann & Clark a pair of six-year-old mules for \$425. They are to be used by the Standard Oil Co., at Cynthiana.

—Fat Colorado and other Western lambs at present are selling over \$1.00 lower than a year ago, while best sheep are nearly 50 cents higher than a year ago. Notwithstanding the comparatively low price for fat lambs, feeders at present are paying within 20 and 50 cents of values current one year ago for feeding stock, showing they had some confidence in the future market of fat stock.—Chicago Drovers' Journal.

PARIS DEALERS CAUGHT.

A few days ago two brothers by the name of Albert and Carley Mitchell, claiming to reside near Lexington, were in town and representing themselves to be farmers, offered what they claimed was country butter for sale to several Paris merchants. They worked a number of them for good amounts until suspicion was aroused when the revenue authorities were notified, which resulted in their arrest. The case was worked up by Deputy United States Collectors Herndon and Insko and the arrest was made here Friday by United States Deputy Marshall I. N. McDaniels. The two men were taken to Lexington where their examining trials were held Saturday before United States Commissioner S. S. Yantis at his office in the Trust Company building. After the testimony each was held to the Federal grand jury, which meets at Frankfort in September. The bail of each was fixed at \$300 and W. C. G. Hobbs signed the bail bonds.

GRASPING GREED.

Yesterday being county court day at Lexington, a conference, called by the Leader "a mass convention" was held at the court house to perfect plans to secure the construction of an interurban road from Lexington, through Clintonville to North Middletown, this county. Besides the promoters at Lexington, who are reaching out for every-thing in sight, there were a few citizens from this county present to see just what kind of a gold brick propo-sition was to be offered. Charlton Lowe and Ed Rice represented North Middletown and Esquire Letch Weath-ers, Clintonville. No one can censure the citizens of North Middletown from desiring the advantages of rapid trans- portation. What evidence exists that the recent surveys for a road from Paris through North Middletown to Mt. Sterling will not be successful and the road built. We think it little for Lexington to come forward in an effort to capture this line of road.

The survey from Paris to Mt. Ster-ling has been made, the route is a fea-sible one, and at this late moment Lex-ington with her usual tendencies is try-ing to head us off. But will she suc-ceed?

GOOD SHOWING.

Attention is directed to the state-of the First National Bank in another column. The statement shows the bank to be in a flourishing condition.

SERIOUSLY INJURED.

A telegram from St. Louis late Sat-urday afternoon to the the parents of the injured man, Mr. and Mrs. D. T. Wilson, announced the serious injury of their son, James Thomas Wilson. He was employed in the Union Freight de-pot at St. Louis and in some manner was caught between two moving cars.

Another message Sunday morning stated he was unconscious with no hope of recovery. His father then tele-graphed the boy's uncle, J. Simms Wil-son, who was at French Lick Springs to hurry to the bedside of his nephew. Yesterday a telegram from Mr. Wilson stated that there was an improvement in his condition, that no bones were broken, and if not seriously injured in-ternally there was an even chance for his recovery.

PARDONED.

Will Stevenson, colored, who was sentenced to three years in the peni-tentiary at the last term of court, for bigamy, was pardoned Friday by Gov. Beckham. Stevenson is an old negro man, being 65 years of age. His first wife deserted him and left the state. After a number of years had elapsed and believing her dead, Stevenson mar-ried again. His first spouse returned to Kentucky, and hearing of his re-mar-riage, had him arrested with above re-sult. Judge Stout, Commonwealth's Attorney Franklin, and the court house officials asked for the pardon. Stev-enson walked out of the jail a free man Friday afternoon.

The Better Way

The tissues of the throat are inflamed and irritated; you cough, and there is more irritation—more coughing. You take a cough mixture and it eases the irritation—for a while. You take

SCOTT'S EMULSION

and it cures the cold. That's what is necessary. It soothes the throat because it reduces the irritation; cures the cold because it drives out the inflammation; builds up the weakened tissues because it nourishes them back to their natural strength. That's how Scott's Emulsion deals with a sore throat, a cough, a cold, or bronchitis.

Lark, dam of six in 2:20 list and eleven in 2:30 list, and first only mare with such a distinction.

In a table of all the great brood mares published, Lark, the dam of Sunland Bourbon, was the only one with six in 2:20 and eleven in 2:30 list. Think of it!

When you consider breeding, individuality, and the kind of colts he gets, Sunland Bourbon's fee is lower than any stallion we know of.

If you want a fine team, a good road horse, a high actor, all having speed breed your mare to Sunland Bourbon. It is well-known he gets the above kind.

Sunland Bourbon made quite a reputation last year as a great road horse, and those who saw him go now know that his record is no measure of his speed.

ROYAL

The Absolutely Pure Baking Powder

Made of Cream of Tartar, and Free From Alum or Phosphatic Acid

Royal Baking Powder renders bread, biscuit, cake and all flour foods finer and more healthful.

★ ★ ★ ★ ★ ★ ★ ★ ★ ★

Baking powders made from alum, phosphates and other harsh, caustic acids are lower in price, but they are injurious to the stomach.

"The injurious effect of alum on the mucous coat of the stomach is positive and beyond dispute; it is both an irritant and an astringent. The use of alum in any article of food or article used in the preparation of food should be prohibited."

IMPORT CHINESE PIGTAILS.

The importation of Chinese pigtails which are imported into Europe in packages of 1,000 pounds each, was recently the subject of court proceedings in England. A laborer who was employed in preparing camel's hair, cheap foreign wool and human hair, had been taken sick with fatal inflammation of the spleen. To fix the cause it was ascertained that the pigtails after being cut off the heads of Chinamen, were at once beheaded and packed. The possibility exists that the hair comes from the head of a Chinaman who has suffered from the plague or some other contagious disease.

OLD RELIC.

While walking over the historic old Blue Licks battlefield, near Blue Lick Springs, in Nicholas county, Robert Abner found a watch embedded in the leaves and soil, where it had evidently lain for many years. Expert watchmakers who have examined the timepiece say they are positive that there has not been a watch of similar pattern manufactured in the past one hundred and fifty years. The old timepiece is in excellent condition and registers time accurately. The watch is of English make. It is thought likely that it was lost by some visitor to the springs.

A FOOLISH PLAN

"It is a joy to eat—I welcome my dinner hour; Because I rout indigestion with August Flower!"
Constipation is the result of indigestion, biliousness, flatulency, loss of appetite, self-poisoning, anemia, emaciation, uric acid, neuralgia in various parts of the system, catarrhal inflammation of the intestinal canal and numerous other ailments that rob life of its pleasures if they do not finally rob you of life itself.
"I'm bound in the bowels," is a common expression of people who look miserable and are miserable—yet who persist in "letting nature take its course."
What a foolish plan, when nature could be aided by the use of Green's August Flower, which is nature's own remedy for constipation and all stomach ills.
August Flower gives new life to the liver and insures healthy stools.
Two sizes, 25c and 75c. All druggists.

THE FAIR

The Fair The Fair

Standrds that Never Waver.

The Fair's business standards never waver. Year in and year out we stick doggedly to the principle of an honest value at an honest price. Handling, as we do, thousands of small articles, we have to be eternally vigilant on the score of quality and goodness. We have to study hard and work hard to get the right things in and keep the wrong things out. But to the care and pains with which this is done we attribute no small part of our success. It is easy enough to sell at low prices if you sell trashy, good-for-nothing things. But 'tis a very different achievement to sell good and worthy things at the low prices we constantly quote.

Replenishing Time In Tableware.

This is the time of the year when wousewives are most apt to replenish their stock of Tableware. When Spring cleaning is on, and closets and China cupboards undergo thorough inspection, one is apt to find quite a good many tableware needs that otherwise would have escaped notice. For dishes will break and crack, even in the best regulated households. Come to The Fair and every gap in your table service can be filled most highly to your satisfaction in every particular. The variety of choice in China and Glassware of every kind was never better the patterns and styles are all of the kind that tasteful women will command; and certainly no one could gnd fault with the prices.

Accent on the Operatic Stage.

No Englishman with daughters could do a rasher thing than permit them to take lessons from eminent professors with a view of going on the stage. The opera stage in England scarcely exists. At Covent Garden a woman who can speak good English can only get in by force of social influence, and abroad a foreigner has very great difficulty because she cannot speak or sing with a perfect accent. The foreign lady or gentleman comes across here and on occasion will venture to sing in English, and their mistakes bring nothing more than a smile to the faces of the audience. But let an English singer go to France or Germany, and a peal of derisive laughter covered even his stentorian notes. In Brussels I heard an American tenor laughed at because some of his vowels were not quite pure—Brussels, where their French is the most villainous patois I have ever heard. In Germany I have heard both French and English artists laughed at because their accent was not absolutely correct.—London Saturday Review.

Russian Discipline.

General Dragomiroff, the Russian military expert, rose from the ranks and always dressed according to the army regulations for the common soldier. One day while driving about St. Petersburg in his carriage he noticed a soldier with hair longer than the regulations called for. He had the horses stopped, alighted and, taking off his hat, ordered the soldier to seize him by the hair. The soldier hesitated. He feared to lay violent hands on his general; besides, the hair was clipped too close to afford a hold for the hands. The general surveyed the soldier sternly for a few moments, then, twining his fingers in the latter's locks, he literally wiped up the street with him, the victim not daring to resist. Finally, having impressed the lesson thoroughly, he re-entered his carriage and drove on, ordering the soldier to follow. At the first barber's shop they came to he again alighted and had every vestige of hair shaved from the soldier's head, then turned him loose as a horrible example to his fellows.

King James' Books.

Some very fine binding was executed for King James I., who during his entire life was an enthusiastic patron of letters and art. In some of his books the thistle is introduced with heavy corner pieces, and the arms in the center. One fine piece of work, now in the British museum, is in bright brown calf, powdered with 'flower-de-luce. Another folio in crimson velvet has the arms of England embroidered on both sides with gold thread on a ground-work of yellow silk. The king's initials are worked above. The lettering is in leather, and the boards are tied together by red ribbon, constituting a regal book in every particular. John Gibson, in Scotland, and the Barkers, in England, were appointed to be the king's binders, but there is little trace of their work now extant.

Animal Having the Most Teeth.

The animal having the most teeth is the great armadillo of south Central and northern South America. It is a fact well known to most people that the normal or average number of teeth in mammals is thirty-two—sixteen above and the same number below. The great armadillo, however, is an exception, having from 92 to 100. He has from twenty-four to twenty-six in each side of the upper jaw and from twenty-two to twenty-four in each side of the lower jaw. Another peculiarity lies in the fact that they are all molars or grinders. They increase in size from front to back, instead of from the root, and are wholly destitute of enamel.

CUT FLOWERS.

Commencing on March 31 I will have on display at Mrs. Baird's millinery store, cut flowers of all kinds. Parties wanting flowers will please phone or leave orders at that place.

Jury Subbing.

Mexico has an ingenious plan for facilitating verdicts in jury trials. Two supernumerary jurors are drawn to sit near the jury box and listen to the evidence and arguments. If any of the regular jury falls ill or is otherwise disqualified from going on, one of the "subes" takes his place. In this way they avoid what is often seen in American courts—a long trial rendered useless when it is nearly finished by the sudden illness or death of one juror.

Madrid's Night Watchmen.

Madrid still has the mediaeval night watchmen. They admit late comers to the apartment houses at night, but no longer sing out the hour or the condition of the weather. They still go by the name of "sereno," which they got from the fact that, as it seldom rains in Spain, their cries about the weather generally ended with that word ("las tres y sereno").

Just Rebuke.

"Ma!"
"What is it now?"
"I wanna nuther pieca cake!"
"No, Tommy, you've had enough."
"Aw, ma! Yer always tellin' me I don't eat properly, an' nen you don't never gimme no chance to practice!"—Cleveland Leader.
